Iplace Smart 2Relay

Sonoff Pow WiFi Switch With Power Consumption Measurement

PRODUCT DESCRIPTION

Sonoff Dual is a WiFi based 2 gang switch that can connect and independently control two connected appliances or lights. This simply means 1 Sonoff Dual control switch equals to 2 Sonoff basic switches! Sonoff Dual 2 gang light switch inherits Sonoff Basic switch's advantages such as easy installation and operation, quick WiFi access, remote control through APP EweLink.

In the application eWeLink, available on both iOS and Android, users can independently turn on/off each of the two connected devices. But the button on Sonoff Dual 2 gang WiFi light switch is not an ON/OFF toggle switch, it is only a WiFi pairing button. Users can set single/repeat/countdown timing schedules to turn on/off at a specified time, and also share with others so that they can control together.

- **Remote ON/OFF**–Turn electrical devices on/off from anywhere
- **Independent control**–Control the 2 gangs separately
- **App Support** –Free iOS and Android mobile App eWeLink
- **Sync Status**–Real-time device status provided to App
- **Timing**–Set scheduled/countdown timers to turn on/off at specified time
- **Scene**–Turn on/off a gang of devices with one tap
- **Smart Scene**–Triggered on/off by temp, hum or other environmental conditions from sensor
- **Network Support** –Control electrical devices over Wi-Fi or 2/3/4G mobile network
- **Compatibility –**Works perfectly with Amazon Alexa, Google Assistant, IFTTT, Google Nest

Works With Amazon Alexa

You can ask Alexa to turn on/off Sonoff Dual.
Standard voice control commands phrases for Sonoff Dual (if you just say the device name, Alexa will turn on/off all the 2 gangs immediately):
Alexa, turn on {deviceName}
Alexa, turn off {deviceName}
Alexa, turn on {deviceName} {gangName}
Alexa, turn off {deviceName} {gangName}
Explanation: if the device name of your Sonoff Dual is "My Switch", the gang name is "Gang 1", then you can control with "Alexa, turn on My Switch Gang 1".

Iplace Smart 2Relay
